Copa Holdings Reports Fourth Quarter and Full Year 2007 Results

Panama City, Panama --- February 21, 2008. Copa Holdings, S.A. (NYSE: CPA), parent company of Copa Airlines and Aero Republica, today announced financial results for the fourth quarter of 2007 (4Q07) and full year 2007. The terms "Copa Holdings" or "the Company" make reference to the consolidated entity, whose operating subsidiaries are Copa Airlines and Aero Republica. The following financial and operating information, unless otherwise indicated, is presented pursuant to US GAAP. Unless otherwise stated all comparisons with prior periods refer to the fourth quarter of 2006 (4Q06).

OPERATING AND FINANCIAL HIGHLIGHTS

- Copa Holdings reported net income of US\$34.1 million for 4Q07, or diluted earnings per share (EPS) of US\$0.79, as compared to net income of US\$41.5 million or diluted EPS of US\$0.96 in 4Q06. Fourth quarter 2007 results include special charges at Aero Republica totaling US\$6.3 million related to the accrual of costs associated with terms negotiated for the early termination of three MD-80 aircraft as a result of Aero Republica's ongoing transition to a more fuel efficient all EMBRAER-190 fleet. Excluding the impact of these special charges, the company would have reported 4Q07 net income of \$40.4 million, or diluted EPS of \$0.93.
 - Net income for full year 2007 reached a record US\$160.4 million or diluted EPS of US\$3.69, compared to US\$133.8 million or diluted EPS of US\$3.10 for full year 2006. Excluding special charges of US\$7.3 million related to the accrual of costs associated with the early termination of five MD-80 aircraft leases as a result of Aero Republica's ongoing transition to a more fuel efficient all EMBRAER-190 fleet and a non-recurring pre-tax gain of US\$8.0 related to insurance proceeds in excess of aircraft book value, net income for full year 2007 would have been US\$159.7 Million or diluted EPS of US\$3.67.
 - Operating income for 4Q07 came in at US\$43.0 million, representing an operating margin of 15.1%, as compared to operating income for 4Q06 of US\$50.7 million. Excluding special charges of US\$6.3 million, operating income would have been US\$49.3 million, which would have represented an operating margin of 17.3% for the quarter, down from 21.3% in 4Q06. These strong results were achieved despite US\$14.6 million in additional fuel costs as a result of a 23% increase in the all-in average price per gallon of jet fuel.
 - In 4Q07, total revenues increased to US\$284.6 million, representing growth of 19.9%. Yield per passenger mile increased 9.0% to 17.5 cents and operating revenue per available seat mile (RASM) increased 6.7% to 13.8 cents. RASM for full year 2007 came in at 13.0 cents, up 4.7% from 12.4 cents in 2006.
 - Revenue passenger miles (RPMs) increased 10.5% from 1.38 billion in 4Q06 to 1.52 billion in 4Q07. Available seat miles (ASMs) increased 12.4% from 1.84 billion in 4Q06 to 2.07 billion in 4Q07. As a result, average load factor decreased 1.3 percentage points to 73.8%. Load factor for full year 2007 reached 74.0%, up from 73.1% in 2006.
 - Operating cost per available seat mile (CASM), increased 15.1% from 10.2 cents in 4Q06 to 11.7 cents in 4Q07. Excluding special charges, CASM would have increased 12.1% from 10.2 cents in 4Q06 to 11.4 cents in 4Q07. CASM, excluding fuel costs and special charges, would have increased 7.1% from 7.1 cents in 4Q06 to 7.6 cents in 4Q07, primarily as a result of the effect of Aero Republica's down gauge to an EMBRAER-190 fleet and the strengthening of the Colombian currency.
 - CASM for full year 2007 came in at 10.6 cents, up from 10.0 cents in 2006. Excluding fuel and special charges, CASM for full year 2007 would have come in at 7.1 cents, up from 6.8 cents in 2006.
 - In the fourth quarter, Copa Airlines took delivery of two aircraft - one EMBRAER-190 and one Boeing 737-800 - ending 2007 with a fleet of 37 aircraft with an average age of 3.7 years. During the quarter, Aero Republica took delivery of two additional EMBRAER 190 aircraft, ending 2007 with a fleet of 13 aircraft - 7 EMBRAER 190s and 6 MD-80s. For the full year, Copa Holdings took delivery of 14 aircraft.
 - On October 11, Copa Airlines and KLM Royal Dutch Airlines announced a broad code share alliance, which will enable passengers of both carriers to travel more easily between Copa's extensive Latin American network and Europe via two of the world's most convenient hubs. KLM will begin service from Amsterdam to Panama City in March 2008.
 - For full year 2007, Copa Airlines reported an on-time performance of 86.7% and a flight-completion factor of 99.4%, maintaining the airline amongst the best in the industry.

MANAGEMENT'S COMMENTS ON 4Q07 RESULTS

The fourth quarter marked a strong end of another record year for Copa Holdings. The company recorded operating income of US\$43.0 million and net income of US\$34.1 million. Excluding US\$6.3 million in special charges at Aero Republica related to the accrual of costs associated with terms negotiated for the early termination of three MD-80 aircraft leases, operating income and net income reported would have been US\$49.3 million and US\$40.4 million, respectively.

Total revenues increased 19.9% during the quarter, while operating margin decreased 6.2 percentage points from 21.3% to 15.1%. Excluding special charges for the quarter, operating margin would have come in at 17.3%, or 4.0 percentage points below 4Q06, mainly as a result of increased fuel prices. Copa Holdings strong fourth quarter performance underscores the company's ability to deliver exceptional results even in a high fuel price environment.

Passenger revenues, which represented 94% of total revenues, increased 20.4% to US\$266.2 million, due to a 12.4% increase in capacity and a 7.1% increase in passenger revenue per ASM. The latter was driven by a 9.0% increase in yield, partly offset by a 1.3 percentage point decrease in consolidated load factors from 75.0% to 73.8%.

In 4Q07, Copa Airlines' yields came in at 16.2 cents, representing an increase of 3.4% vs. 4Q06 and 11.8% vs. 3Q07. Yield gains over 3Q07 were mainly the result of the re-calibration of the revenue management system and a healthy fare environment, which resulted in increased fares and fuel surcharges. Aero Republica's yields increased 36.8% to 23.8 cents and continued to benefit from a stronger Colombian currency and higher local currency fares as well as increased capacity into higher yielding international flights. Aero Republica's international load factors increased from 50.4% in 4Q06 to 70.8% in 4Q07, despite a 143% increase in international capacity, which represented 14.2% of total capacity in 4Q07 as compared to 5.6% in 4Q06.

Consolidated operating expenses for 4Q07 increased 29.4% to US\$241.6 million, while consolidated operating expenses per ASM (CASM) increased 15.1% to 11.7 cents. CASM, excluding special charges, would have come in at 11.4 cents, representing an increase of 12.1%. Incremental fuel costs as a result of higher fuel prices totaled US\$14.6 million. Excluding total fuel costs and special charges, unit costs would have increased 7.1% to 7.6 cents, mainly as a result of the down gauge Aero Republica's fleet and the strengthening of the Colombian currency.

Jet fuel prices, net of hedges, increased 23% from an average of US\$2.12 in 4Q06 to US\$2.61 in 4Q07. For 4Q07, fuel hedges represented 19% of consolidated volume at an average price of \$2.07 per gallon (US Gulf Coast). The company currently has hedges in place for 1Q08 representing 18% of consolidated volume at \$2.16 per gallon, 16% at \$2.25 for 2Q08, 13% at \$2.34 for 3Q08 and 9% at \$2.49 for 4Q08.

The Company increased its already solid liquidity position, which includes US\$34.5 million in committed credit lines to US\$352 million in 4Q07, translating to approximately 34% of last twelve-month revenues. Total debt amounted to US\$842.9 million, which relates for the most part to aircraft and equipment financing.

For 4Q07, Aero Republica recorded operating income of US\$0.7 million, compared to operating income of US\$3.4 million in 4Q06. Aero Republica's operating income, excluding the special charges, would have come in at US\$7.0 million, representing an operating margin of 10.8%.

In the fourth quarter, Aero Republica continued its fleet renewal program by receiving two EMBRAER-190s, to end the year with a fleet of seven EMBRAER-190's and six MD-80's, reducing its average fleet age by more than half to 7.4 years. Capacity in terms of ASMs flown in EMBRAER-190 aircraft, as a percentage of total Aero Republica capacity increased from 1.3% in 4Q06 to 35.4% in 4Q07. In 2008, more than half of Aero Republica's total capacity is expected to be flown on more fuel efficient EMBRAER-190 aircraft.

Additionally, Aero Republica continued to increase its international connectivity with Copa Airlines' Hub of the Americas. Aero Republica now serves Panama from five of Colombia's most important cities, having added in 4Q07 service from the city of Bucaramanga - Colombia's fifth largest city, with a metropolitan area population of more than a million inhabitants.

Strong results in 2007 set the stage for continued strengthening and expansion of Copa Airlines' network through the addition of new aircraft, more destinations and increased frequencies. On a consolidated level, capacity is expected to increase by approximately 18% year-over-year or 9.3 billion ASMs, driven by a 21% Copa Airlines capacity expansion.

OUTLOOK FOR 2008

In 2008, Copa Holdings will continue its focus on profitable growth and the execution of its proven business model of efficiently connecting the Americas through Copa Airlines' centrally located Hub of the Americas in Panama City. Copa Holdings expects demand to be driven by regional economic growth and the growing preference for its network and services. Copa Airlines is expected to have another year of strong growth with capacity increasing approximately 21%, while Aero Republica's capacity will be flat as a result of the continuation of its fleet transition program. Additionally, strong demand should lead to healthy load factors and yields, while we expect a slight increase in CASM, ex-fuel from 7.1 to 7.3 cents. Our operating margin outlook for 2008 reflects a fuel assumption of an average cost per barrel of +/- \$85 and a crack spread of +/- \$15.

Financial Outlook (US GAAP)	2008 - Full Year
ASMs (billion)	+/-9.3
Average Load Factor	+/-75%
RASM (cents)	+/-13.4
CASM Ex-fuel (cents)	+/- 7.3
Operating Margin	17%-19%

Copa Airlines operating revenue

Copa Airlines operating revenue for 4Q07 totaled US\$222.2 million, an 18.1% increase over operating revenue of US\$188.2 million in 4Q06. This increase was primarily due to an 18.4% increase in passenger revenue.

Passenger revenue. For 4Q07 passenger revenue totaled US\$207.1 million, an 18.4% increase over passenger revenue of US\$174.9 million in 4Q06 as ASMs increased by 17.5% in 4Q07 as compared to 4Q06. Passenger yield increased 3.4% to 16.2 cents, while load factor decreased from 78.2% in 4Q06 to 76.1% in 4Q07.

Aero Republica operating revenue

During 4Q07, Aero Republica generated operating revenue of US\$64.9 million, representing a 30.8% increase over 4Q06. This increase resulted mainly from an US\$13.0 million or 28.3% increase in passenger revenue. During the quarter Aero Republica's capacity (ASMs) decreased by 5.4%, while traffic (RPMs) decreased by 6.2%, resulting in a load factor of 63.5% or 0.6 percentage points below 4Q06. Yields increased by 36.8% primarily due to the strengthening of the Colombian currency, as well as higher fares in both domestic and international routes.

Operating expenses

For 4Q07, consolidated operating expenses rose 29.4% to US\$241.6 million, representing operating cost per available seat mile (CASM) of US\$11.7 cents. Operating expenses, excluding special charges, totaled US\$235.3 million, a 26.0% increase over operating expenses of US\$186.7 million for 4Q06. Operating cost per available seat mile (CASM), excluding fuel costs and special charges, increased 7.1% from 7.1 cents in 4Q06 to 7.6 cents in 4Q07. An overview of the major variances on a consolidated basis follows:

Aircraft fuel. For 4Q07, aircraft fuel totaled US\$78.4 million, a US\$22.0 million or 39.1% increase over aircraft fuel of US\$56.4 million in 4Q06. This increase was primarily a result of a 12.1% increase in gallons consumed resulting from increased capacity and a 23% increase in the average price per gallon of jet fuel (all-in), which net of hedges averaged US\$2.61 in 4Q07 as compared to US\$2.12 in 4Q06.

Salaries and benefits. For 4Q07, salaries and benefits totaled US\$32.2 million, an 18.8% increase over salaries and benefits of US\$27.1 million in 4Q06. This was mainly a result of an overall increase in operating headcount to support additional capacity and the effect of the Colombian currency appreciation.

Passenger servicing. For 4Q07, passenger servicing totaled US\$23.1 million, a 28.8% increase over passenger servicing of US\$17.9 million in 4Q06. This increase was primarily a result of an increase in passengers carried by Copa Airlines and the effect of the Colombian currency appreciation.

Commissions. For 4Q07, commissions totaled US\$18.5 million, an 18.6% increase over commissions of US\$15.6 million in 4Q06. This increase was primarily a result of higher passenger revenue partially offset by lower average commission rates in both Copa Airlines and Aero Republica.

Reservations and sales. Reservations and sales totaled US\$12.0 million, a 19.3% increase over reservation and sales of US\$10.1 million in 4Q06. This increase was primarily a result of more passengers carried and additional costs related to global distribution systems at Aero Republica.

Maintenance, material and repairs. For 4Q07, maintenance, material and repairs totaled US\$13.4 million, a 3.9% decrease over maintenance, material and repairs of US\$13.9 million in 4Q06. This decreased was primarily a result of less major overhaul events at Aero Republica, partly offset by more maintenance events at Copa Airlines.

Depreciation. Depreciation totaled US\$9.8 million in 4Q07, a 31.7% increase over depreciation of US\$7.5 million in 4Q06. This increase was primarily related to the depreciation of new aircraft and spares.

Flight operations, aircraft rentals, landing fees and other rentals. Combined, flight operations, aircraft rentals, landing fees and other rentals increased 17.3% from US\$25.3 million in 4Q06 to US\$29.7 million in 4Q07, primarily as a result of increased capacity.

Other. Special charges. During 4Q07 we registered a US\$6.3 million charge related to the accrual of costs associated with terms negotiated for the early termination of three MD-80 aircraft as a result of Aero Republica's ongoing transition to a more fuel efficient all EMBRAER-190 fleet.

Aircraft fuel. For 4Q07, aircraft fuel totaled US\$60.0 million, a 44.4% increase over aircraft fuel expense of US\$41.5 million in the same period in 2006. This increase was primarily a result of a 18.6% increase in gallons consumed resulting from increased capacity and a 21% increase in the average price per gallon of jet fuel (all-in), which net of hedges averaged US\$2.56 in 4Q07 as compared to US\$2.12 in 4Q06.

Salaries and benefits. For 4Q07, salaries and benefits totaled US\$24.9 million, a 10.7% increase over salaries and benefits of US\$22.5 million in the same period in 2006. This increase was mainly a result of an overall increase in operating headcount to support additional capacity.

Commissions. Commissions totaled US\$12.8 million for 4Q07, a 15.5% increase over commissions of US\$11.1 million in 4Q06. This increase was primarily a result of an 18.4% increase in passenger revenue, partially offset by a lower average commission rate.

Reservations and sales. Reservations and sales totaled US\$9.0 million, a 15.7% increase over reservation and sales of US\$7.8 million in 4Q06. This increase was primarily a result of more passengers carried.

Maintenance, materials and repairs. Maintenance, materials and repairs totaled US\$11.0 million in 4Q07, a 37.5% increase over maintenance, materials and repairs of US\$8.0 million in 4Q06. This increase resulted from higher capacity and more major overhaul events during the period.

Depreciation. Depreciation totaled US\$8.6 million in 4Q07, a 24.1% increase over depreciation of US\$6.9 million in 4Q06. This increase was primarily related to depreciation of new aircraft and spares.

Flight operations, aircraft rentals, landing fees and other rentals. Combined, flight operations, aircraft rentals, landing fees and other rentals increased 21.5% from US\$19.1 million in 4Q06 to US\$23.2 million in 4Q07, primarily as a result of higher capacity.

Other. Other expenses totaled US\$11.5 million in 4Q07, a 29.4% increase over other expenses of US\$8.9 million in 4Q06, primarily as a result of higher transaction taxes and fees and an increase in OnePass frequent flyer program miles awarded.

Aero Republica operating expenses

Aero Republica's operating expenses increased 39.0% to US\$64.2 million in 4Q07 from US\$46.2 million in 4Q06. Operating expenses per available seat mile (CASM) increased 46.9% to 16.4 cents in 4Q07 from 11.2 cents in 4Q06. CASM, excluding fuel costs and special charges, increased 33.1% from 7.6 cents in 4Q06 to 10.1 cents in 4Q07, mainly due the effect of the stronger Colombian currency.

Non-operating income (expense)

Interest expense. Interest expense totaled US\$12.6 million in 4Q07, a 53.4% increase over interest expense of US\$8.2 million in 4Q06, mostly as a result of increased aircraft related debt.

Interest capitalized. Interest capitalized totaled US\$0.6 million in 4Q07, a 61.8% increase over interest capitalized of US\$0.4 million in 4Q06.

Interest income. Interest income totaled US\$3.4 million, a 36.2% increase over interest income of US\$2.5 million in 4Q06, mostly a result of increased cash, cash equivalents and investments.

Other, net. Other net totaled US\$6.0 million in 4Q07, mainly as a result of gains related to the mark-to-market of fuel hedge contracts.
