MANAGEMENT'S COMMENTS ON 2Q13 RESULTS

Copa Holdings' second quarter results continued to benefit from solid demand trends as well as lower unit costs. For 2Q13, the Company reported operating income of US\$97.7 million, a 34.5% increase over 2Q12. As a result, the operating margin for the quarter stood at 16.5%, an increase of 2.4 percentage points over 2Q12.

Consolidated operating revenues increased 14.8% on a 17.7% capacity expansion during the period. Load factor came in at 75.3%, or 1.7 percentage points above 2Q12, while yields decreased 4.6% to 16.4 cents. As a result, passenger revenues per ASM (PRASM) decreased 2.3%, from 12.6 cents in 2Q12 to 12.3 cents in 2Q13. However, adjusting for a 7.3% increase in length of haul, PRASM increased 1.1% over 2Q12.

Consolidated operating expenses for 2Q13 increased 11.5% to US\$494.3 million, while consolidated operating expenses per ASM (CASM) decreased 5.2% to 10.7 cents. Excluding fuel costs, unit costs decreased 2.6% to 6.7 cents, mainly as a result of the dilution of fixed costs associated with increased capacity and an increase in average stage length.

Aircraft fuel expense increased 6.6% or US\$11.5 million compared to 2Q12, as a result of increased capacity. The Company's effective jet fuel price, which includes realized hedge gains of US\$1.5 million and US\$1.8 million for 2Q13 and 2Q12, respectively, decreased from an average of US\$3.32 in 2Q12 to US\$3.08 in 2Q13.

For 2Q13, the Company had fuel hedges in place representing 31% of its consolidated volume. Continuing with the execution of its fuel hedge policy, the Company currently has hedged approximately 38% in 3Q13, and 37% in 4Q13. For 2014 and 2015, the Company had hedged approximately 18% and 10%, respectively, of its forecasted fuel consumption.

The Company recorded a net non-operating expense of US\$15.3 million for 2Q13 compared to a net non-operating expense of US\$36.8 million for 2Q12. Non-operating income (expense) included a fuel hedge mark-to-market loss of US\$10.6 million, compared to a fuel hedge mark-to-market loss of US\$26.5 million for 2Q12.

Copa Holdings closed the quarter with US\$848.7 million in cash, short term and long term investments, representing 35.0% of last twelve months' revenues. Of such cash, 32.2% or \$273.6 million was subject to exchange controls in Venezuela and was pending repatriation.

Total debt at the end of 2Q13 amounted to US\$1.1 billion, all of which is related to aircraft and equipment financing. As a result of placing firm orders for five Boeing narrow-body aircraft during 2Q13, Copa Airlines ended the quarter with firm orders for 37 aircraft and options for up to 14 aircraft.

Copa Holdings' strong second quarter results are the product of a solid and well executed business model which leverages the Company's unique competitive advantages, such as geographic position and infrastructure, among others, to operate the best and most convenient network for intra-Latin America travel from the Hub of the Americas in Panama. Going forward, the Company will continue to strengthen its long-term competitive position by taking advantage of new growth opportunities and implementing initiatives to further strengthen its network and product.

OUTLOOK FOR 2013

For 2013, the Company is updating its full year guidance to reflect a slight increase in CASM ex-fuel, from 6.6 cents to 6.7 cents. Guidance in terms of capacity growth, load factor, unit revenues (RASM) and operating margin remain unchanged. Factored into the current guidance is an estimated effective price per gallon of jet fuel, including the effect of current hedge contracts and into-plane costs, of US\$3.20 per gallon.

CONSOLIDATED SECOND QUARTER RESULTS

Operating revenue

Copa Holdings' operating revenue for 2Q13 totaled US\$592.0 million, a 14.8% increase over operating revenue of US\$515.8 million in 2Q12. This increase was due to a 14.9% or US\$76.2 million increase in passenger revenue.

Passenger revenue. For 2Q13 passenger revenue totaled US\$569.0 million, a 14.9% increase over passenger revenue of US\$495.0 million in 2Q12. A 4.6% decline in passenger yield, partly offset by a 1.7 percentage point increase in load factor led to a 2.3% decrease in passenger revenue per ASM (PRASM).

Cargo, mail and other. Cargo, mail and other revenue totaled US\$23.0 million in 2Q13, a 10.7% increase over cargo, mail and other of US\$20.8 million in 2Q12.

Operating expenses

For 2Q13, consolidated operating expenses increased 11.5% to US\$494.3 million, representing operating cost per available seat mile (CASM) of 10.7 cents. CASM, excluding fuel costs, decreased 2.6% to 6.7 cents. An overview of the major variances on a consolidated basis follows:

Aircraft fuel. For 2Q13, aircraft fuel totaled US\$184.8 million, an US\$11.5 million or 6.6% increase over aircraft fuel of US\$173.3 million in 2Q12. This increase was primarily a result of a 15.0% increase in gallons consumed, offset by a 7.3% decrease in the average price per gallon of jet fuel (all-in), which averaged US\$3.08 in 2Q13 as compared to US\$3.32 in 2Q12. The all-in average price per gallon of jet fuel for 2Q13 includes a \$1.5 million fuel hedge gain, compared to a US\$1.8 million gain in 2Q12. Excluding the effect of fuel hedge gains for both periods, fuel prices decreased 7.5%, from US\$3.36 per gallon in 2Q12 to US\$3.11 in 2Q13.

Salaries and benefits. For 2Q13, salaries and benefits totaled US\$66.1 million, an 8.2% increase over salaries and benefits of US\$61.1 million in 2Q12. The main driver was an increase in operating headcount to support additional capacity.

Passenger servicing. For 2Q13, passenger servicing totaled US\$60.4 million, an 18.5% increase over passenger servicing of US\$50.9 million in 2Q12. This increase resulted from the growth in operations, higher effective rates related to on-board and airport services.

Commissions. For 2Q13, commissions totaled US\$24.3 million, a 14.1% increase over commissions of US\$21.3 million in 2Q12. This increase was primarily a result a higher revenue base, partly offset by a lower average commission rate.

Reservations and sales. Reservations and sales totaled US\$24.8 million, a 20.3% increase over reservation and sales of US\$20.6 million in 2Q12. This increase was primarily a result of a 14.9% increase in passenger revenues.

Maintenance, material and repairs. For 2Q13, maintenance, material and repairs totaled US\$22.8 million, a 4.8% decrease from maintenance, material and repairs of US\$24.0 million in 2Q12. This decrease was a result of higher costs recorded in 2Q12 related to the return of two leased aircraft.

Depreciation. Depreciation totaled US\$26.9 million in 2Q13, a 26.6% increase over depreciation of US\$21.2 million in 2Q12. This increase was primarily driven by additional aircraft and spares.

Flight operations, aircraft rentals, landing fees and other rentals. Combined, flight operations, aircraft rentals, landing fees and other rentals increased 22.3% from US\$53.1 million in 2Q12 to US\$64.9 million in 2Q13, primarily as a result of an increase in departures and additional aircraft rentals.

Other. Other expenses totaled US\$19.4 million, an increase of US\$1.7 million over 2Q12.

Non-operating income (expense)

Consolidated non-operating income (expense) totaled a net expense of US\$15.3 million in 2Q13, compared to a net expense of US\$36.8 million in 2Q12.

Interest expense. Interest expense totaled US\$7.6 million in 2Q13, an 11.9% decline from interest expense of US\$8.6 million in 2Q12, as a result of lower interest rates on our variable rate debt and a lower outstanding debt balance.

Interest income. Interest income totaled US\$2.8 million, a 3.6% increase over interest income of US\$2.7 million in 2Q12, mainly as a result of a higher average cash and investments balance.

Other, net. Other, net totaled a net loss of US\$10.6 million in 2Q13, compared to a net loss of US\$31.0 million in 2Q12. Other, net for 2Q13, includes a fuel hedge mark-to-market loss of US\$10.6 million, compared to a fuel hedge mark-to-market loss of US\$26.5 million for 2Q12.
