### MANAGEMENT'S COMMENTS ON 1Q21 RESULTS

The pace of recovery for international travel within Latin America is still significantly hindered by travel restrictions and health requirements due to the Covid-19 pandemic. During the first quarter, several countries in the region, including Argentina, Brazil, Chile, Cuba, Venezuela and Panama, imposed or were subject to new travel restrictions and health requirements that affected air travel demand and the Company's ability to deploy additional capacity.

In terms of our cash position, and mainly due to sales for the second quarter, we managed to keep the cash consumption to an average of US\$23 million per month for the quarter, below the Company's original expectations. Furthermore, due to the financing of recently delivered aircraft and proceeds from asset sales, our cash balance increased by more than US\$200 million in the quarter to US\$1.2 billion, and our total liquidity increased to US\$1.5 billion.

Assuming the vaccination efforts will eventually have a positive effect on Covid-19 infection rates in the region, we expect this could lead to the relaxation of travel restrictions, a faster demand recovery and larger capacity deployment in the second half of the year.

The Covid-19 pandemic continues to challenge the aviation industry in an unprecedented way and is forcing most airlines around the world to make significant changes in the way they conduct their business. From the outset of the crisis, our management team has taken proactive actions, focusing on reducing fixed costs, further bolstering the Company's liquidity position, and adjusting the Company's size, for what could be a continued weakened demand environment.

The Company has a proven and very strong business model, which is based on operating the best and most convenient network for intra-Latin America travel from its Hub of the Americas® based in Panama's advantageous geographic position, with the region's lowest unit costs, best on-time performance, and strongest balance sheet. Going forward, the Company believes that its Hub of the Americas® will be an even more valuable source of strategic advantage, especially if fewer intra Latin America markets are able to sustain direct point to point service. We believe our hub will be the best positioned to serve these markets. The Company expects to leverage its strong balance sheet, leading liquidity position and lower cost base to continue strengthening its long-term competitive position and to implement initiatives to further strengthen its network and product in the post Covid-19 world.

### **OUTLOOK FOR 2Q21**

As a result of the uncertainty regarding the Covid-19 pandemic and the impact of continuing travel restrictions, the Company is not providing financial guidance for full year 2021. However, subject to Covid-19 developments, including new government restrictions, among other factors, the Company currently expects its capacity in 2Q 2021 to reach approximately 2.9 billion ASMs, or approximately 45% of the capacity during 2Q 2019. Total revenues are expected at approximately US\$260 million or 40% of total revenues for 2Q 2019.

Cash consumption, excluding any proceeds from asset sales and extraordinary financing activities, but including capital expenditures and payment of financial obligations, and assuming an all-in fuel price per gallon of \$1.95, is expected at a range of US\$10 to US\$15 million per month for 2Q 2021.

### **CONSOLIDATED FIRST QUARTER RESULTS**

#### Operating revenue

Consolidated revenue for 1Q21 totaled US\$185.7 million, driven mostly by passenger revenue.

Passenger revenue totaled US\$173.1 million, mostly comprised of flown passenger ticket revenue and passenger related ancillary revenue.

Cargo and mail revenue totaled US\$8.0 million, in line with the reduced capacity for the quarter.

Other operating revenue totaled US\$4.6 million, resulting mostly from revenue from non-air ConnectMiles partners.

### **Operating expenses**

Fuel totaled US\$51.3 million, corresponding to 29.1 million gallons of jet fuel consumed in the guarter.

*Wages, salaries, benefits and other employees' expenses* totaled US\$54.6 million, representing a 50.5% reduction year over year, mostly driven by a reduced payroll given contract suspensions, voluntary temporary leaves and less variable compensation provisions.

**Passenger servicing** totaled US\$5.6 million, representing a 74.5% cost reduction per passenger year over year, resulting from cost efficiencies and a simplified on-board product offering due to temporary COVID-19 biosafety protocols.

Airport facilities and handling charges totaled US\$22.0 million, a 45.4% decrease YOY, but a 24.9% higher cost per departure year over year, due to volume rebates attained in 2020 and not in 2021 due to lower capacity, and higher fees in certain U.S. airports.

Sales and distribution totaled US\$21.7 million, a 48.5% decrease due to lower revenue and sales versus the first quarter of 2020, partly offset by higher costs related to schedule changes.

*Maintenance, materials and repairs* totaled US\$19.7 million, comprised of material and component repairs provisions related to the future return of leased aircraft and other expenses including aircraft storage and return to service expenses.

**Depreciation and amortization** totaled US\$59.4 million, mostly comprised of owned and leased flight equipment, maintenance events, and IT systems amortizations.

Flight operations totaled US\$9.4 million due to overflight fees, in line with the reduced number of flights operated in the guarter.

Other operating and administrative expenses totaled US\$19.0 million, which is mostly comprised of IT systems, insurance, overhead expenses and one-time advisory fees.

#### Non-operating Income (Expense)

Consolidated non-operating income (expense) resulted in a net expense of US\$33.4 million.

**Finance cost** totaled US\$17.8 million, driven by US\$9.2 million convertible notes interest expenses, US\$6.5 million related to loan interest and commission expenses and US\$1.9 million in interest charges related to operating leases.

Finance income totaled US\$2.9 million in proceeds from investments.

**Net change in fair value of derivatives** totaled a net US\$15.7 million unrealized mark-to-market loss related to the Company's convertible notes.

Gain (loss) on foreign currency fluctuations totaled a US\$1.8 million loss, mostly because of the weakening of the Brazilian real and the Colombian peso against the dollar.

Other non-operating income (expense) totaled an expense of US\$1.0 million.
